

BlackAndWhite-Project founded by Patricia Nyanchama Makori, Kenya and Dr Achim Albrecht, Germany

BlackAndWhite – Hope that transcends boundaries.

Since 2016, we have been working with partners in Kenya to improve the lives of disadvantaged children – with food, water, education, medical care, and new opportunities.

We go to places where aid barely reaches.

And we bring hope.

Clean water. Education. Hope. For children who would otherwise be forgotten.

Pamoja - Together

In Kenya we cooperate with church and private organizations as well as the Kenyan Red Cross.

Our priorities are:

- Ensuring **food and drinking water supplies** in Turkana County, including **well drilling**
- Establishing **educational programs**
- Providing **healthcare** for children with critical illnesses
- Supporting people with **mobility impairments** to promote dignity, independence and participation
- Providing financial support for the **education** of children from disadvantaged families.
